Our original award-winning QuickLook is now enhanced with a powerful integration of technology and premium features

Its high-resolution display and mega pixel sensor technology sets a new benchmark for image clarity. Its unique flip camera design clearly focuses throughout a wide depth of field for magnifying print on medicine bottles or viewing price tags and clothing labels. The patented tilt camera provides an easy transition from reading to writing mode. With up to 7 hours of continuous battery use time and a battery status indicator, QuickLook Zoom can last for a full day of activities. QuickLook Zoom definitely is the most feature-packed portable video magnifier in its class.
